INFINI™
HIGH INTENSITY FOCUSED RF
A New Dimension in Anti-aging Treatments
The LUTRONIC INFINI is the ideal solution to create targeted coagulation zones in aging, sagging skin with wrinkles. Complete control over treatment depth and energy levels enables a multi-layered approach for truly customized treatments, regardless of skin type or tan. Now you can provide the best solution for results your patients demand year round.

**UNIQUE TECHNOLOGY, AMAZING RESULTS**

Infini’s proven design delivers improved wrinkle reduction through High Intensity Focused RF which provides 3-dimensional energy delivery to volumize tissue and deliver improved outcomes. Highly Focused RF energy is delivered via insulated gold-coated microneedles creates precise and controllable fractionated coagulation zones within a specific layer of dermis. Adjustable depth control allows for customized and reproducible treatments of delicate areas. Infini effectively lowers the risk of PIH in dark skin types and can be safely used on patients with melasma and other types of pigmented lesions. Lutronic’s patented ComfortFlow™ technology maximizes comfort and patient satisfaction.

**WHY INFINI?**
- Easy to use
- Works on all skin types, including tanned skin
- Creates thousands of targeted coagulation zones per treatment to smooth wrinkles and improve aging, sagging skin
- Low cost consumables for maximized ROI
- Quick and easy recovery, less downtime than CO2
- More effective with broader range of applications than other non-ablative laser treatments
- Less pain and cost than micro-focused ultrasound

**RESULTS YOU CAN COUNT ON**

INNOVATIVE COMFORTFLOW TECHNOLOGY

Built-in ComfortFlow technology enables smoother penetration via sequential microneedle insertion which minimizes patient discomfort for quick and easy recovery.

Adjustable depth control, up to 3.5 mm, allows for multiple passes and treatment on delicate areas.

WHAT PHYSICIANS ARE SAYING

“Finally! A Radiofrequency System That Makes Sense: The Infini... Infini has the right combination of the transmission of energy through the insulated microneedle tips and variable depths taken together with the flexible balance between power levels and exposure times, making Infini the ideal ‘RF Skin Tightener’*.”

Steve Weiner, MD, USA

“The main advantage of Infini, is that it delivers the RF energy in a very precise and controllable manner, which allows for more predictable and dramatic results, with less damage to surrounding tissue for less downtime than other competing procedures. I am particularly enthusiastic about the potential for off the face rejuvenation*.”

Vic Ross, MD, USA

PROVEN CLINICALLY EFFECTIVE

Infini is clinically proven, with studies to back the technology. Regardless of depth you can be confident that you are creating consistent coagulation zones which provide outcomes you can count on.

BEHIND THE ADVANCED TECHNOLOGY

The robust Infini has a long list of benefits that support you and your patients’ needs.

- Ergonomically designed lightweight handpiece
- Precise targeting with adjustable microneedles up to 3.5 mm
- Foot or finger switch operated
- Intuitive touch screen GUI
- Patented ComfortFlow™ technology
- Choice of 2 tip sizes
